1. HB Video Content Access

The Host Broadcaster will record each of the designated scheduled events and create two daily highlight packages one made up of content from the morning's events and the second from the afternoon events.

There will be a number of ways for Media to access the highlight packages:

- a) Distribution area in the IMC for Media to plug in its own video recording device at the designated times.
- b) Media request a play out of the highlight package connected to a booked transmission circuit.
- c) Media are provided access the online HB Video Library by supplying the required credentials and via the provided log-in browse and download the content required.
- d) Media at the IMC can request direct access to the HB Video Library to browse and download the content via a dedicated cable connection and browsing station. **Rate: Price On Application**
- e) Non-accredited Media are able to request access to the HB Video Library by emailing their request and paying a one-off access fee. **Rate: \$50.00**

The HB Video Library, accessed via <https://app.mediaroom.com.au/login>, will contain the two daily highlight packages, both as an overall package and by event. These are preview-able before selecting either a low or high res download.

A HB Video Library user guide will be provided to approved media.

2. Playout Facilities

The Host Broadcaster will provide playout facilities from the Host Broadcast Transmission Area. Local and international fibre or satellite services need to be booked to your destination separately. Media are also able to plug in their own replay devices using a BNC video connection.

The following HB provided replay devices will be made available:

Player	Format	Frame Rate
Panasonic P2	HD	PAL
Sony XD Cam	HD	PAL
File-based playout	HD	PAL
File transfer to HB Video Library	HD	PAL

Rate: \$100.00 per 30-minute period
